# THE ESSENCE OF VITRA

## A HISTORY OF INGENUITY

Vitra's rich heritage can be traced back to 1909, when renowned Turkish pharmacist Süleyman Ferit Eczacıbaşı began producing bathing and cologne products at his pharmacy in Izmir.

Three decades later, his son, Dr Nejat Eczacıbaşı, took the family business a step further by establishing a pharmaceutical laboratory in Istanbul. The business continued to grow steadily, and by 1952 he had opened Turkey's first modern pharmaceutical factory. Within a few years, Eczacıbaşı's vision had grown further still, and with the establishment of Turkey's first ceramic sanitaryware factory in 1958, Vitra was born.

## INNOVATION AND CREATIVITY

Vitra's Innovation Centre – where all the magic happens, from the conception, development and realisation of original ideas and designs, to the innovation, planning and production of new technology and materials.

Here, architects and designers are encouraged to free their imaginations and original ideas are showcased in a setting that blends culture, art and lifestyle.

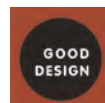

It's this commitment to innovation and creativity, to constantly improve comfort, sustainability and bathroom aesthetics, that is helping us transform the traditional concept of the bathroom.

AN INTERNATIONAL BRAND, VITRA PRODUCES 5 MILLION PIECES OF SANITARYWARE PER YEAR AND EXPORTS TO 75 COUNTRIES WORLDWIDE

## INTERNATIONAL RECOGNITION

Vitra's successful relationships with international designers have resulted in many accolades for the company, including the Wallpaper Design Award for Best Bathroom, an Elle Décor Award, Good Design Award, Red Dot Design Award and no fewer than three iF product design awards for excellence in product and design quality.

# VITRA RIM-EX™

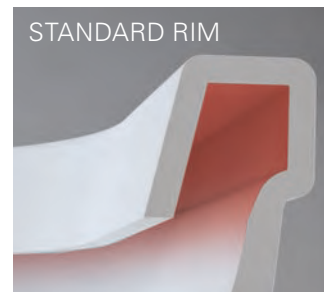

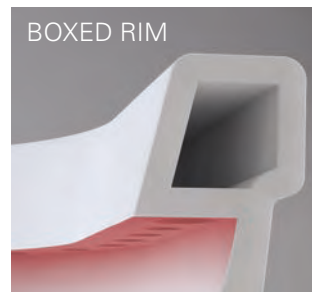

VITRA RIM-EX: INNOVATIVE DESIGN FOR IMPROVED HYGIENE AND EFFORTLESS CLEANING

VitrA's rimless WC pan technology dispenses with one of the most unhygienic aspects of traditional WC design, where hard-to-clean rims can harbour germs and allow them to multiply unchecked. The unique design of our Rim-Ex pans incorporates a water diverter to direct the flush around the bowl, which can be removed easily for cleaning.

- Easy cleaning
- No rim or holes for germs to collect
- 95% more hygienic than standard WC pans\*

\* Tests undertaken by the Akdeniz University, Turkey show VitrA Rim-Ex WC pans are easier to clean and 95% more hygienic compared to standard WC pans.

- 1 RIMLESS BOWL**
  - Easy to clean with no rim or channel
  - No rim or holes where dirt and germs can collect
  - Efficient flushing in specially designed bowl
- 2 WATER OUTLET**
  - Precise water distribution for better flush
  - No hole for bacteria growth
- 3 CERAMIC WATER DISTRIBUTION TOOL**
  - Removable for easy cleaning

THE ESSENCE OF VITRA

# BLUE LIFE

## A PLEDGE TO THE FUTURE

Blue Life is our philosophy for the planet – the production approach, design, attitude and management outlook of all brands under the Eczacıbaşı Building Products Division, including Vitra.

## Blue Life

For our blue planet...

Blue Life means:

- Reducing the use of non-renewable resources in the production process.
- Making significant investments towards boosting eco-efficiency.
- Developing products that help to conserve energy and resources through everyday use, driven by a concern for the environment and for our collective future.
- Securing the future through efficient management of resources in the present.
- Conservation of resources through good design.

### PRODUCT CERTIFICATES

### PRODUCTION CERTIFICATES

# BATHS

Bathing has always been associated with health, wellbeing and relaxation. VitrA's beautiful range of baths continues to evoke, uphold and enhance these associations. Whatever your preference, be it straight or offset, a sweeping line or a calming curve, our baths make bathing a sensory pleasure.

VitrA baths are made from high-grade acrylic with a superb finish. Each bath features a minimum of 5 adjustable feet, a fully encapsulated wooden baseboard and frame, and an advanced wall fixing kit to keep the bath tightly in place, ensuring stability with no creaking or bowing. All baths carry a 10 year guarantee, and panels come with a 2 year guarantee.

ALL VITRA BATHS HAVE FULLY ENCAPSULATED BASEBOARDS AND FRAMES TO PROVIDE A QUALITY FINISH AND MAKE INSTALLATION EASIER

# BRASSWARE

VitrA mixes graceful curves with elegant angles to create brassware that is both aesthetically and ergonomically pleasing. Carefully engineered design ensures flow and temperature controls require only the lightest of touches. Every consideration is given to conserving water and energy without compromising the user experience.

Designed and manufactured specifically for the UK market and to meet the requirements of varying UK water pressure, VitrA brassware is incredibly easy to install. The main body of each item is of brass construction, ensuring solid durability, further underpinned by the reassurance of a 7 year guarantee on chrome plating and 1 year guarantee on moving parts.

# INSTALL AND SPECIFY WITH CONFIDENCE

WALL-HUNG FRAMES

INSTALL AND SPECIFY WITH CONFIDENCE

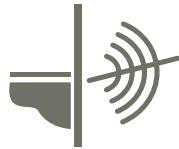

## PRACTICAL AND ESSENTIAL FOR THE MODERN BATHROOM

The last thing your beautiful bathroom needs is an unsightly mess of cisterns, pipes, u-bends and other functional elements spoiling the look and ambience. Using a wall-hung frame is the answer, and aside from a much tidier look, there are lots of practical benefits too.

### HYGIENIC

Keeping a bathroom clean is so much easier with a wall-hung WC. All pipework, usually a haven for dust, is completely concealed, and with the WC pan fixed above the floor, it's so much easier to keep the floor clean.

### QUIET

Not only is the cistern concealed behind a wall, but it's also manufactured with a specially-engineered fill valve, and lined with insulating styrofoam to keep filling noise to an absolute minimum.

### SPACE-SAVING

A wall-hung WC takes up less room than a conventional WC, providing greater flexibility where space is at a premium. In addition, the tidier arrangement, with more available floor space, also creates the impression of a larger bathroom.

### WATER-SAVING

The dual-flush action for both the 8cm and the 12cm wall-hung frames operates at 2.5/4 litres or 3/6 litres, resulting in as much as 70% reduced water consumption, benefiting both you and the environment.

### EASY ACCESS

The flush plate can be removed easily, providing easy access to internal fittings. Flush plates have a 5 year guarantee.

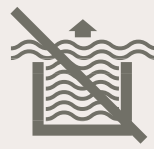

### QUICK AND EASY INSTALLATION

An intuitive design makes installation quick and easy – a real advantage, particularly when carrying out multiple installations.

## QUALITY AND ASSURANCE

### 100% RELIABILITY AND PERFORMANCE

VitrA's wall-hung frames are subjected to rigorous reliability and performance testing at VitrA's production facilities.

### OVERFLOW

An overflow pipe located within the valve acts as a safety device. Overflow pipes are tested to ensure they can cope even in high water pressure areas.

### STRENGTH AND STABILITY

Wall-hung WC pans and their concealed frames are designed to be able to support up to 400kg.

### FLOW RATE

Our cisterns undergo quality control testing to ensure that they meet international standards for minimum flush volume and flow rate.

### LEAK DETECTION

Every cistern we manufacture is individually tested to ensure it is 100% watertight.

### PERFORMANCE

All products are subjected to rigorous testing at our production facilities to ensure that they function perfectly before passing quality control.

### DURABILITY

Our products are periodically tested for durability according to international standards. To pass this testing, every single component must still be functioning perfectly after 200,000 consecutive operations.

# SPECIFIC DESIGN FEATURES

## 9 INTERMEDIARY HOSE

The intermediary hose that connects to the water piping inside the cistern can isolate the water flow during service-oriented interventions, which enables easy replacement of parts.

## 1 FLUSH PLATE

The flush plate operates the cistern. It enables easy operation of the wall-hung frame and covers internal parts that remain in the wall.

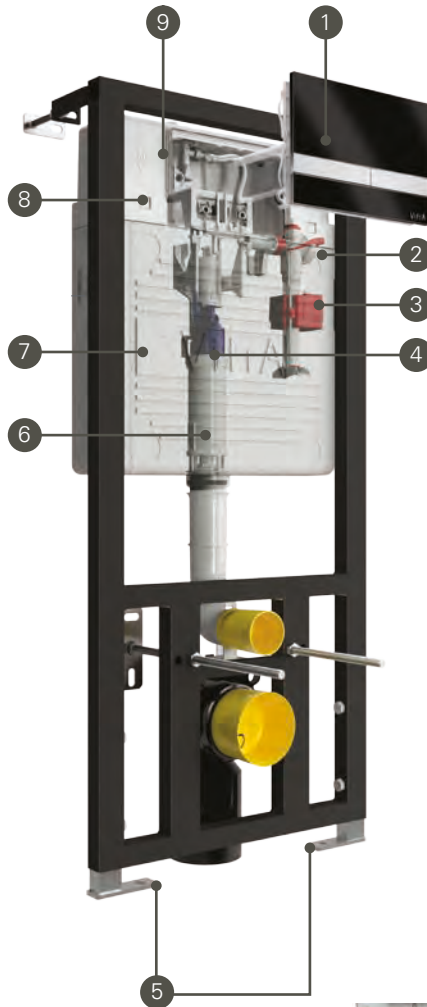

## 8 PANEL GAP

The panel gap on the body is designed to provide optimum opening space for maintenance of filling or flushing units, enabling easy access to the cistern. The size of this gap is very important for servicing purposes.

## 2 BODY

The filling and flushing valves are located in this part of the cistern. Produced from polyethylene (HDPE) raw materials, it offers more safety with its flexibility and resilience.

## 7 BODY STYROFOAM

The Styrofoam that coats the entire lower body prevents condensation in the cistern and ensures sound insulation.

## 3 FILLING VALVE

The filling valve is the system that fills the cistern with water. The filling valve is checked in VitrA labs for "water-tightness" via accelerated life testing 200,000 times. The filters above the filling valve eliminate the risk of clogging, ensuring durability and a long lifetime. New VitrA filling systems ensure fast and silent filling.

## 6 FLUSHING VALVE

The flushing valve transfers the water in the cistern to the WC pan for flushing. For correct and reliable functioning, flushing units are subjected to 200,000 water-tightness and accelerated life tests at the factory.

## 4 OVERFLOW PIPE

The overflow pipe in the flushing mechanism takes the safety duty in wall-hung frames. When too much water enters the cistern, the overflow pipe channels the excess water into the WC pan, preventing the risk of flooding.

## 5 METAL STAND

Metal stands enable easy adjustment of height from the floor and secure fixing.

## WALL-HUNG FRAME FLUSH PLATES

VitrA's flush plates designs have been developed with individuality in mind.

For this reason, whether it is a mechanical, pneumatic or electronic system VitrA has a frame and flush plate to suit.

# FRAMES

Whatever your project needs, the range of VitrA wall-hung frames offers you complete flexibility.

Both slim and regular frames can be used in solid wall, stud wall and double stud wall scenarios, and are all available with a choice of flushing volume. The slim frame is perfect when space is at a premium.

## FLOOR AND WALL FIXATION / SLIM FRAME
