If a product fails due to a manufacturing fault, Vitra will offer a free replacement or replacement parts. If a product is not available, Vitra will offer an alternative to the same value.

\*1 year guarantee on internal working parts.

## ICON GUIDE

### WATER SAVING

VitrA water saving WCs, marked with this symbol, have a special bowl structure and are specifically designed to flush with both lower (2.5/4 litres) and typical (3/6 litres) water volumes.

By using less water, whilst still delivering efficient flushing, these water saving WCs benefit you and the environment. All VitrA wall-hung frames come with dual flush function as standard in both 2.5/4 litre and 3/6 litre options.

### SPACE SAVING

A wall-hung WC solution takes up less room than a typical WC, and the concealed installation offers flexibility in confined spaces. The range of compact WCs have a shorter projection, saving even more space.

### RIM-EX TECHNOLOGY

Effortless cleaning and innovative, hygienic design. VitrA's rimless WC pan eliminates the areas where germs gather and multiply, giving a superior level of hygiene.

### WATER SAVING

The purpose of WRAS is to contribute to the protection of public health by preventing contamination of public water supplies and encouraging the efficient use of water by promoting and facilitating compliance with the Water Supply (Water Fittings) Regulations and Scottish Water Byelaws.

VitrA bathroom products are designed to combine beauty with practicality, offering the very best in comfort, storage and ease of maintenance.

## IN 2014, VITRA RECEIVED TWO 'IF PRODUCT DESIGN AWARDS' FOR EXCELLENCE IN PRODUCT AND DESIGN QUALITY

### PHILOSOPHY: IT'S ALL ABOUT INSPIRATION

VitrA's quest is to create beautiful, inspiring bathroom environments, and to change our perception of the bathroom from that of a purely functional space into something much more, turning an essential, everyday experience into something beautiful, relaxing and life-enriching.

### DESIGN EXCELLENCE RECOGNISED

The superior design, quality and innovation behind VitrA's products has been acknowledged by some of the world's most prestigious design awards.

## THE ESSENCE OF VITRA

### INSPIRED APPROACH TO DESIGN

In addition to our own highly-accomplished in-house design team, we also collaborate closely with a world-class team of independent designers, each with their own creative instinct and flair for bathroom aesthetics and functionality.

## OUR AWARD-WINNING DESIGN STEMS FROM A CREATIVE, COLLABORATIVE APPROACH

### INTERNATIONAL RECOGNITION

Our strong relationships with designers around the world have enabled us to push the creative boundaries of bathroom design. A key example of this is our collaborative work with German design studio NOA, which resulted in the highly popular T4, Shift and M-Line collections.

This global pool of exceptional design talent has resulted in Vitra being awarded many accolades, including the Wallpaper Design Award for Best Bathroom, an Elle Décor Award, Good Design Award, Red Dot Design Award and no fewer than two iF product design awards for excellence in product and design quality in 2014.

### ROSS LOVEGROVE

One of the most fascinating designers of the 21st century and recipient of countless awards, Ross Lovegrove creates sculptural and organic shapes using sophisticated technology and materials. His design concept 'organic essentialism' is inspired by elements from the natural world which are then reshaped into futuristic forms.

### CHRISTOPHE PILLET

Based in France, Christophe Pillet's name is synonymous with stylish, functional and natural design – the lightness of touch in his work is elegance epitomised. His perfect command of sensuality and refinement has made him one of the most renowned French designers to have gained global recognition.

### NOA

The German design studio NOA specialises in designing new products, technologies and communication strategies.

NOA's fruitful collaboration with Vitra has created many ranges including the M-Line, T4 and Shift collections.

### PENTAGON DESIGN

Pentagon Design is an award winning design studio based in Finland. The needs of the consumer are always a primary focus when it comes to their approach. This results in the development of product ideas and strategies that engage the user and the architectural space.

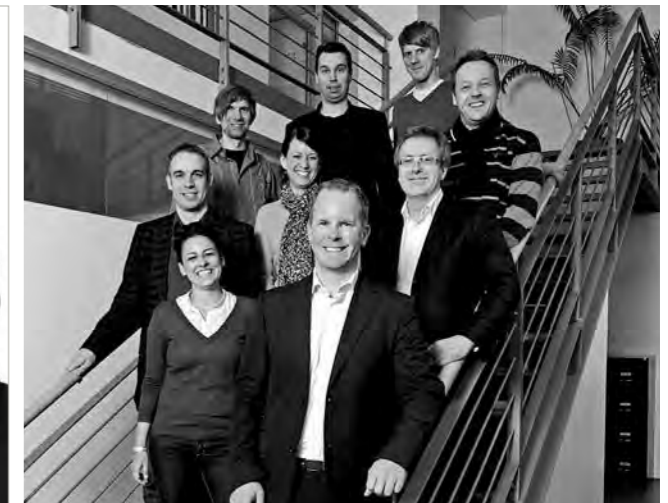

### MATTEO THUN & PARTNERS

Milan-based Matteo Thun & Partners is a studio of architecture, design and communication that refuses to be categorised in stylistic terms. This is the reason why the studio can approach such a wide variety and scale of work, ranging from hotels to coffee cups, with endless originality and vitality.

### NEXUS

The interdisciplinary Nexus Product Design team has been developing product lines and design strategies for leading brands since 1987. Winners of prestigious international awards, Nexus has created ingenious ranges inspired by Vitra's finely honed mastery of technology and design; which are smart, elegant and subtly distinctive in style.

### INDEED

As Europe's leading company for holistic design and brand innovations, Indeed creates compelling designs and powerful brand experiences. Vitra's high-tech and sophisticated Pure and T4 brassware collections were developed by Indeed.

### A HISTORY OF INGENUITY

VitrA's rich heritage can be traced back to 1909, when renowned Turkish pharmacist Süleyman Ferit Eczacıbaşı began producing bathing and cologne products at his pharmacy in Izmir.

Three decades later, his son, Dr Nejat Eczacıbaşı, took the family business a step further by establishing a pharmaceutical laboratory in Istanbul. The business continued to grow steadily, and by 1952 he had opened Turkey's first modern pharmaceutical factory. Within a few years, Eczacıbaşı's vision had grown further still, and with the establishment of Turkey's first ceramic sanitaryware factory in 1958, VitrA was born.

### INNOVATION CENTRE

VitrA's Innovation Centre – where all the magic happens, from the conception, development and realisation of original ideas and designs, to the innovation, planning and production of new technology and materials.

Here, architects and designers are encouraged to free their imagination and original ideas are showcased in a setting that blends design with culture, art and lifestyle.

It's this commitment to innovation and creativity, to constantly improve comfort, sustainability and bathroom aesthetics, that is helping us transform the traditional concept of the bathroom.

### VITRA'S EVOLUTION

|   |   |   |  |   |  |   |  |      |      |      |   |       |

| Süleyman Ferit Bey buys the Sifa pharmacy in Izmir and begins producing toothpaste, lotions and creams. |   |   |  |   |  |   |  |      |      |      |   |       |

## VITRA INFINIT

Bathroom products made from mineralcast are distinguishable by the thinner profile edges and clean lines.

Made from a combination of natural stone powder and a polyester resin mineralcast produces a beautiful finish which is warm to the touch and easy to clean, it can also be used to create basins in wide range of shapes and sizes. Mineralcast is a hard-wearing material with the added benefit of being invisibly repairable in the unlikely event of the basin becoming damaged.

## SEE AND FEEL THE DIFFERENCE WITH VITRA INFINIT

BEAUTIFUL, THIN PROFILE EDGES

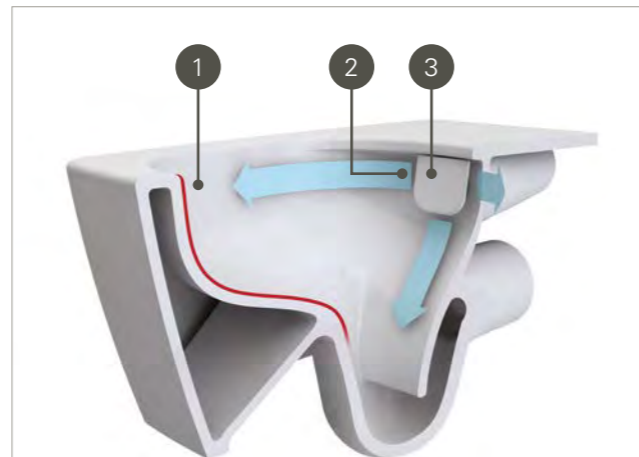

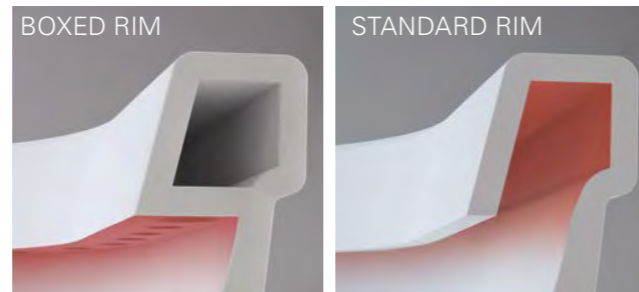

WARM TO TOUCH

VITRA RIM-EX™

Innovative design for improved hygiene and effortless cleaning.

Vitra's rimless WC pan technology dispenses with one of the most unhygienic aspects of traditional WC design, where hard-to-clean rims can harbour germs and allow them to multiply unchecked. The unique design of our Rim-Ex pans incorporates a water diverter to direct the flush around the bowl, which can be removed easily for cleaning.

- Easy cleaning
- No rim or holes for germs to collect
- 95% more hygienic than standard WC pans\*

- 1 RIMLESS BOWL**
  - Easy to clean with no rim or channel
  - No rim or holes where dirt and germs can collect
  - Efficient flushing in specially designed bowl
- 2 WATER OUTLET**
  - Precise water distribution for better flush
  - No hole for bacteria growth
- 3 CERAMIC WATER DISTRIBUTION TOOL**
  - Removable for easy cleaning

\*Tests undertaken by the Akdeniz University, Turkey show Vitra Rim-Ex WC pans are easier to clean and 95% more hygienic compared to standard WC pans.

THE RIM-EX RANGE

The Rim-Ex range includes shapes and styles to match any bathroom series.

VITRA FRESH

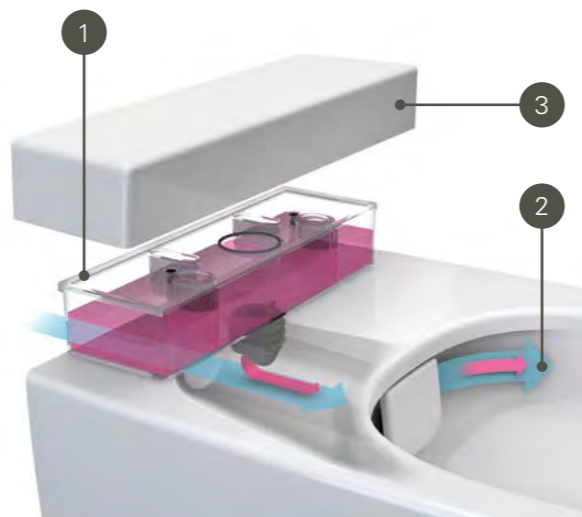

VitrA Fresh WC pans feature an integral tank that dispenses detergent with every flush, helping to clean the pan thoroughly and protect against the build-up of bacteria.

VitrA Fresh prevents the need to add cleaning agents to the cistern, which can corrode the flushing mechanism. VitrA Fresh is currently only available in WCs in the M-Line series.

WC PAN WITH LIQUID CLEANING TANK PROVIDES MAXIMUM HYGIENE AND A FRESH SCENT WITH EVERY FLUSH

- 1 The detergent tank sits on top of the WC pan and stores and mixes liquid detergent\* with flushing water for maximum hygiene
- 2 VitrA Fresh not only emits the pleasant scent of your detergent but provides superior hygiene and sanitation with every flush
- 3 The removable lid enables easy cleaning and refill

\*The liquid detergent dispenser is safe to use with most commercially available non-abrasive toilet cleaning liquids which include hypochlorous cleaning agents and bleach of up to 12.5 pH.

A PLEDGE TO THE FUTURE

Blue Life is the production approach, design, attitude and management outlook of all Eczacıbaşı Building Products Division brands including VitrA.

- Blue Life means reducing the use of non-renewable resources in the production process.
- Blue Life means making significant investments towards boosting eco-efficiency.
- Blue Life means developing products that promote power and resource conservation at the end-user level driven by a concern for the environment and for our collective future.
- We believe managing the future requires efficient management of our resources today; good design also means taking responsibility for resource conservation.

## NOA

A multi-award winning German design studio, NOA blends precise, cutting-edge engineering with ingenious creativity to meet contemporary needs – functionality, interaction and aesthetic value.

\*Only available on the Comfort model

## V-CARE

The new generation of shower toilet from VitrA. The functionality of a toilet with the cleaning properties of a bidet, combined in one unit to offer increased cleanliness, hygiene and comfort.

V-care represents a new generation of shower toilet, with state-of-the-art features including a selection of wash options, adjustable seat and water temperature, drying options and an automatic open/close seat\* mechanism. The typically stylish design will also blend well with most of our bathroom ranges.

V-care will bring a new standard to your bathroom with its design, comfort and improved hygienic use.

5674-B003-6104 V-care Comfort WC, including toilet seat, soft closing £1899  
58205 M-Line Infnit tall unit, right hand hinged, 40cm, high gloss white £850  
740-1101 Select flush plate\*\*, glass black £138

For technical information see pages 206-207

\*\*Flush plates require a VitrA frame, see pages 190-203

V-CARE BLENDS PERFECTLY WITH MOST BATHROOM STYLES

**MORE HYGIENIC**

V-care offers touch-free WC usage and with the Comfort model the seat opens automatically when you approach. You can simply start the integrated shower function with the touch of a button while you stay sitting comfortably on the WC. The washing and drying options are also controlled by the remote.

CREATED BY GERMAN DESIGN STUDIO NOA WITH AN ELEGANT, UNIVERSAL FORM DESIGNED TO BLEND AND INTEGRATE WELL IN VIRTUALLY ANY BATHROOM ENVIRONMENT

TOUCH-FREE USE

**SIMPLE TO OPERATE**

V-care can be used via remote control and has a very simple, intuitive user interface. The basic functions of the WC can also be controlled via the left and right side of the toilet itself.

**EASY TO CLEAN WC**

With no awkward rim to negotiate in the inner bowl and concealed fixings, the V-care WC is very easy to clean. Rim-Ex technology dispenses with the rim inside the WC, enabling cleaning of the inner bowl with a single wipe.

**DESIGNED FOR COMFORT**

The seat, designed with an ergonomic shape for optimum comfort, comes complete with remote-controlled seat temperature adjustment.

EASY TO CLEAN

ALL WASHING AND DRYING OPTIONS ARE CONTROLLED USING THE REMOTE CONTROL

**DRYING AND AIR PURIFICATION**

After use, a drying function, with adjustable drying temperature, can be selected (Comfort model only).

In both Comfort and Essential models, an air purification process is automatically activated when the user is seated on the WC.

**ENERGY-SAVING FUNCTION**

Select from three modes:

1. Standard
2. Energy-saving
3. Stand-by

**SPACE-SAVING**

V-care combines the functions of a regular toilet with those of a bidet, saving space which would otherwise be occupied by a bidet in the bathroom.

**MORE COMFORTABLE**

In addition to five temperature control settings for water, seat and drying functions, with the V-care system also enables adjustment of water pressure to ensure maximum comfort.

## ISTANBUL

Istanbul – a city of great contrasts and diversity, where East meets West, and where VitrA has its roots. Taking inspiration from a rich cultural and architectural heritage, Ross Lovegrove has created a stylish homage to this great city in the form of the most exquisite bathroom design, which like the city itself, has its very own unique identity.

VITRA DESIGN TEAM

With our own team of extremely talented designers, adept at combining VitrA's strong tradition of ingenuity with their own inspiration and creativity, a VitrA-designed bathroom range will always represent the epitome of quality, elegance and flair.

## ELEGANCE

The traditionally-styled Elegance range, with characterful period touches, elegant lines and refined proportions, is the range of choice for adding an air of retro-grandeur to your bathroom.

Distinctive brassware, available in chrome, gold or copper finishes, complements the range and completes the look.

WATER JEWELS

MATTEO THUN & PARTNERS

A world-renowned, Milan-based studio, headed by the multi-award-winning Matteo Thun, famous as much for outstanding architecture as innovative design. It's his talent for visualisation of form and space, alongside a deep understanding of the latest materials and technologies available that makes Matteo Thun's bathroom design so original.

## WATER JEWELS

The Water Jewels collection offers something truly extra special to those with a taste for the exotic. Matteo Thun's pure forms balance the curved and the linear with an added dimension, thanks to VitrA's own innovative, advanced manufacturing technology. The result is a range that balances space, form and function to quite stunning effect.

5663 Washbasin, wall-hung and countertop, 80cm £217

6397 Ceramic waste cover £51

### M-LINE INNOVATION

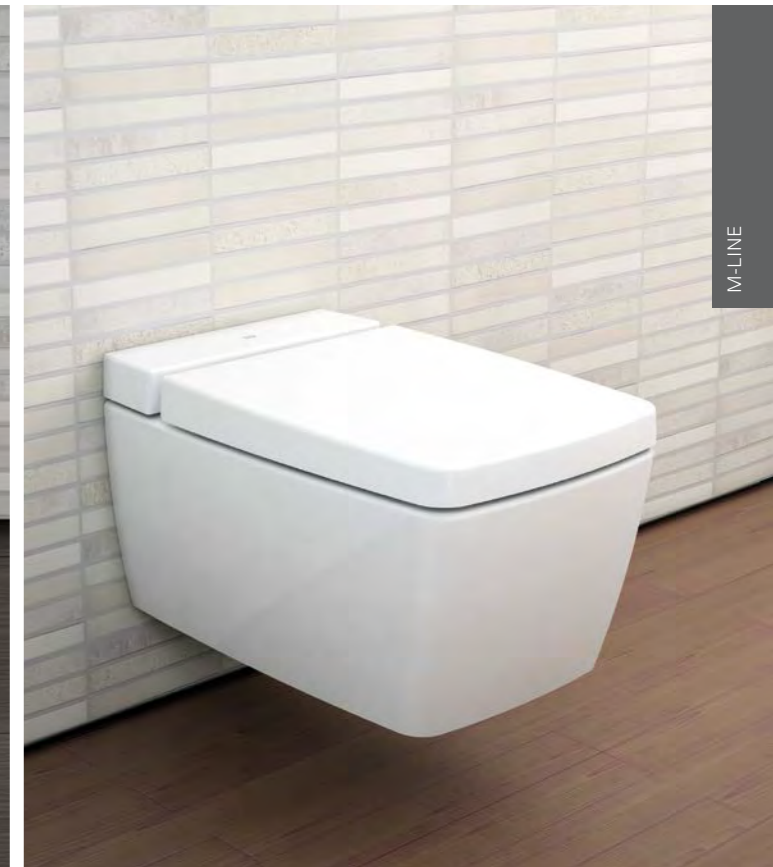

Developed for superior hygiene, the M-Line series features a range of innovative developments that provide smart, practical solutions.

All M-Line washbasins have a specially-designed bowl, with precisely the right combination of depth, shape and incline to promote the maximum flow of dirt to the waste area, preventing a build-up of residue on the bowl surface.

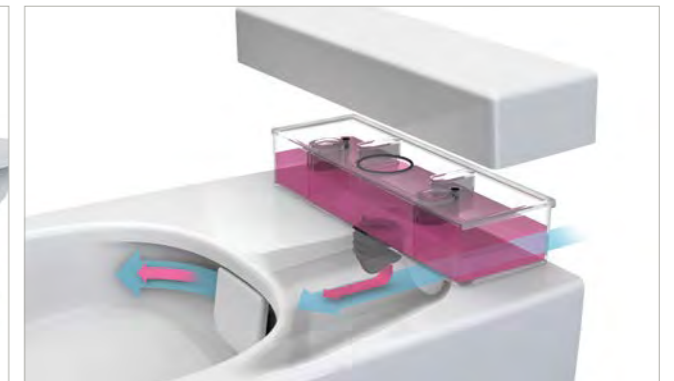

In addition, all M-Line washbasins can be fitted with either standard metal waste covers, or Vitra's special ceramic waste cover.

7672 Wall-hung WC pan, Rim-Ex £324

5676B003-1086 Wall-hung WC pan, with Vitra Fresh £324

### VITRA RIM-EX

The redesigned bowl of the M-Line series WC pan features a smooth, channel-free design to discourage germ reproduction and provide superior hygiene. The water diverter tool can also be removed easily for cleaning.

### VITRA FRESH

Another M-Line series innovation. A concealed tank\* above the WC pan dispenses liquid cleaner with each flush, cleaning the pan thoroughly and protecting against bacteria build-up. This provides an alternative to placing conventional cleaning agents in the cistern, which can lead to corrosion of the flushing mechanism.

\*The liquid detergent dispenser is safe to use with most commercially available non-abrasive toilet cleaning liquids which include hypochlorous cleaning agents and bleach of up to 12.5 pH.

BRASSWARE

VitrA mixes graceful curves with elegant angles to create brassware that is both aesthetically and ergonomically pleasing. Carefully engineered design ensures flow and temperature controls require only the lightest of touches. Every consideration is given to conserving water and energy without compromising the user experience.

Designed and manufactured specifically for the UK market and to meet the requirements of varying UK water pressure, VitrA brassware is incredibly easy to install. The main body of each item is of brass construction, ensuring solid durability, further underpinned by the reassurance of a **7 year guarantee** on chrome plating and 1 year guarantee on moving parts.

Add the perfect finishing touch to your bathroom with our brassware, designed to complement any bathroom suite.

## MIRRORS / SHELVES

A Vitra mirror is the focal point of any bathroom. Our mirrors and mirrored cabinets combine sophisticated design with high quality materials, good craftsmanship and sensible practicality. Most of our mirrors also include integral lighting for a brighter, better-lit bathroom, and there are many options to choose from, whether with lamps or concealed backlighting, to options with shelves and sliding doors. All are easy to install, available in a wide range of sizes, from 45cm-50cm, and come with a 2 year guarantee.

WALL-HUNG FRAMES

## WALL-HUNG FRAMES

Concealed behind a solid or stud wall, VitrA's frame systems are crucial to any modern bathroom, supporting and holding wall-hung WCs firmly in place. VitrA's frames allow your bathroom designer the freedom to create a stunning room without the need for expensive structural building work.

- 740-0700 Loop T flush plate\*, gloss white £38
- 5676 M-Line wall-hung WC pan £271
- 90-003-01 M-Line toilet seat £86
- 5675 M-Line wall-hung bidet £248

\*Flush plates require a VitrA frame, see pages 190-203

WALL-HUNG FRAMES

INSTALL AND SPECIFY WITH CONFIDENCE

PRACTICAL AND ESSENTIAL FOR THE MODERN BATHROOM

The last thing your beautiful bathroom needs is an unsightly mess of cisterns, pipes, u-bends and other functional elements spoiling the look and ambience. Using a wall-hung frame is the answer, and aside from a much tidier look, there are lots of practical benefits too.

HYGIENIC

Keeping a bathroom clean is so much easier with a wall-hung WC. All pipework, usually a haven for dust, is completely concealed, and with the WC pan fixed above the floor, it's so much easier to keep the floor clean.

QUIET

Not only is the cistern concealed behind a wall, but it's also manufactured with a specially-engineered fill valve, and lined with insulating styrofoam to keep filling noise to an absolute minimum.

EASY ACCESS

The flush plate can be removed easily, providing easy access to internal fittings. Flush plates have a 5 year guarantee.

SPACE-SAVING

A wall-hung WC takes up less room than a conventional WC, providing greater flexibility where space is at a premium. In addition, the tidier arrangement, with more available floor space, also creates the impression of a larger bathroom.

QUICK AND EASY INSTALLATION

An intuitive design makes installation quick and easy – a real advantage, particularly when carrying out multiple installations.

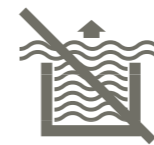

WATER-SAVING

The dual-flush action for both the slim and the regular wall-hung frame operates at 2.5/4l or 3/6l, resulting in as much as 70% reduced water consumption, benefiting both you and the environment.

QUALITY AND ASSURANCE

100% RELIABILITY AND PERFORMANCE

VitrA's wall-hung frames are subjected to rigorous reliability and performance testing at VitrA's production facilities.

OVERFLOW

An overflow pipe located within the valve acts as a safety device. Overflow pipes are tested to ensure they can cope even in high water pressure areas.

STRENGTH AND STABILITY

Wall-hung WC pans and their concealed frames are designed to be able to support up to 400kg.

LEAK DETECTION

Every cistern we manufacture is individually tested to ensure it is 100% watertight.

FLOW RATE

Our cisterns undergo quality control testing to ensure that they meet international standards for minimum flush volume and flow rate.

PERFORMANCE

All products are subjected to rigorous testing at our production facilities to ensure that they function perfectly before passing quality control.

DURABILITY

Our products are periodically tested for durability according to international standards. To pass this testing, every single component must still be functioning perfectly after 200,000 consecutive operations.

SPECIFIC DESIGN FEATURES

9 INTERMEDIARY HOSE

The intermediary hose that connects to the water piping inside the cistern can isolate the water flow during service-oriented interventions, which enables easy replacement of parts.

1 FLUSH PLATE

The flush plate operates the cistern. It enables easy operation of the wall-hung frame and covers internal parts that remain in the wall.

8 PANEL GAP

The panel gap on the body is designed to provide optimum opening space for maintenance of filling or flushing units, enabling easy access to the cistern. The size of this gap is very important for servicing purposes.

7 BODY STYROFOAM

The Styrofoam that coats the entire lower body prevents condensation in the cistern and ensures sound insulation.

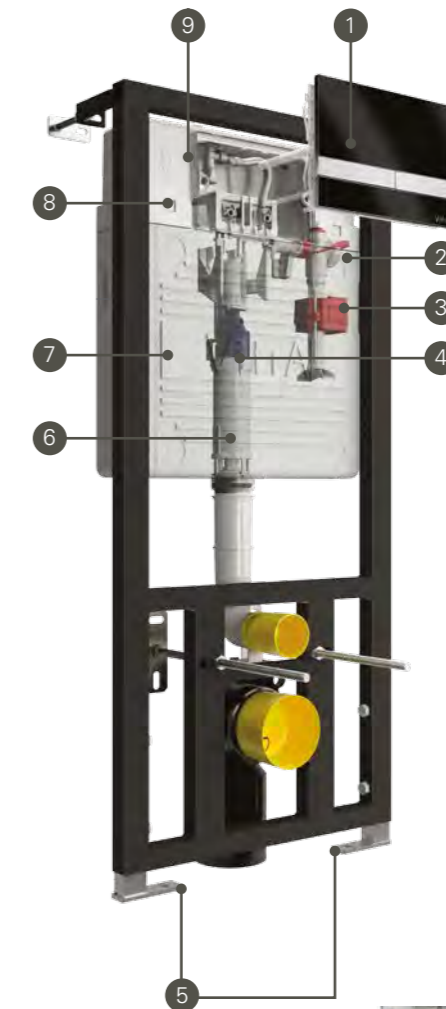

6 FLUSHING VALVE

The flushing valve transfers the water in the cistern to the WC pan for flushing. For correct and reliable functioning, flushing units are subjected to 200,000 water-tightness and accelerated life tests at the factory.

5 METAL STAND

Metal stands enable easy adjustment of height from the floor and secure fixing.

2 BODY

The filling and flushing valves are located in this part of the cistern. Produced from polyethylene (HDPE) raw materials, it offers more safety with its flexibility and resilience.

3 FILLING VALVE

The filling valve is the system that fills the cistern with water. The filling valve is checked in Vitra labs for "water-tightness" via accelerated life testing 200,000 times. The filters above the filling valve eliminate the risk of clogging, ensuring durability and a long lifetime. New Vitra filling systems ensure fast and silent filling.

4 OVERFLOW PIPE

The overflow pipe in the flushing mechanism takes the safety duty in wall-hung frames. When too much water enters the cistern, the overflow pipe channels the excess water into the WC pan, preventing the risk of flooding.

## WALL-HUNG FRAMES FLUSH PLATES

### FLUSH PLATES

VitrA's flush plate designs have been developed with individuality in mind. For this reason, whether it's a mechanical, pneumatic or electronic panel system required, VitrA has a flush plate and frame to suit.

| FLUSH PLATES |             |               |                    |                  |                 |
|--------------|-------------|---------------|--------------------|------------------|-----------------|

FRAMES

Whatever your project needs, the range of Vitra wall-hung frames offers you complete flexibility.

Both the slim and regular sized frames can be used in solid wall, stud wall and double stud wall scenarios, and are all available with a choice of flushing volumes. The slimline frame is perfect when space is at a premium.
